

## CC-125 Instructions

Thank you for purchasing the Stromberg Carlson Cargo Caddy bike rack (item CC-125). When assembled this product will provide many years of trouble free service. This kit contains components and hardware for two complete bike racks to be used on our Cargo Caddy (item CC-100). Please place tire holders on the inside of your tires for a secure fit. Each tire holder should be placed for a specific bike. Use carriage bolts and lock nuts to secure tire holders to expanded metal. Strap bike frame to Cargo Caddy frame.

- Carton content:
- (4) Tire holders
  - (8) Carriage bolts
  - (8) Lock nuts
  - (2) Tie down straps

Note: Tie down straps need to be secured to the outer frame of the Cargo Caddy. Attaching straps to the expanded metal can cause failure.
