

INSTALLATION INSTRUCTIONS

Ladder Chair Rack

LA-104

Ladder Chair Rack

Model: LA-104

Thank you for purchasing the Stromberg Carlson ladder chair rack. When assembled and used properly, this product will provide many years of trouble free service. This kit contains components and hardware for one complete chair rack to be mounted to your RV's exterior ladder.

WARNING:

- **Maximum capacity – four folding chairs..**
- **Always pin the chair rack in place while in use or when using the ladder.**
- **Never transport chairs without securing strap in place.**
- **Check the fasteners often to ensure the screws are still tight.**
- **Do not allow your chairs to reach beyond the width of your RV.**
- **Do not cover vehicle's tail lights.**
- **Do not allow exhaust fumes to blow directly on items, as this is a FIRE HAZARD.**
- **Stromberg Carlson is not responsible for any damage if warnings are not heeded.**

Carton Contents

(1) Ladder Chair Rack

Tools provided for assembly: (1) 5/32 Allen wrench

Place the bike rack against your ladder, with the ladder mounting brackets located above treads. Attach the bracket backer pieces securely using the enclosed hardware. There is a left-hand and right-hand side to this chair rack. When installing onto your exterior RV ladder be sure the arms of the chair rack can be folded out to allow use of the RV ladder (**Figures 1 and 2**). Always lock chair rack in place when transporting chairs or when using RV ladder (**Figure 3**). Secure chairs in place using straps (**Figure 4**).

NOTE: We recommend use of a bungee cord (not included) to eliminate sway at the bottom of the chairs during travel. Currently we don't offer chair covers. Please see your local dealer for chair covers.
