## Zip Grip

**Models:** AM-ZIP22, AM-ZIP39, AM-ZIP2239

1. Slide the tie wraps through the sleeves near each end of the grip's zipper.
2. Leaving room for your rail to pivot in the bracket, wrap the tie wrap near the start of your zipper around your rail, starting near the top bracket.
3. Zip down the rail and secure the end of your zipper with the other tie wrap. (Always zip down – to prevent unzipping.)
4. Trim excess tie wrap tail with clippers and file until smooth to the touch.
5. For 22" and 39" combo packs, note the 22" grip is for the vertical post and the 39" grip is to for the curved section of the rail.
